

## National Domestic Listing Workplan FY23-27 Workplan (April 14, 2023 Version)

**Key to Action Types:** 12M/PLPCH – 12-month finding on a petition to list a species. If listing is warranted, we generally intend to proceed with a concurrent proposed listing rule and proposed critical habitat designation, if critical habitat is prudent and determinable.

Discretionary Status Review/PLPCH – Status review undertaken by discretion of the Service. Results of the review may be to propose listing, make a species a candidate for listing, provide notice of a not warranted candidate assessment, or other action as appropriate.

PLPCH: For species that are already candidates for listing, a proposed listing determination would either propose the species for listing or provide notice of a not warranted finding. We generally intend to propose critical habitat designations concurrent with proposed listing rules, to the extent prudent and determinable.

PCH: For species that are already listed, a proposed critical habitat rule will propose to designate critical habitat for the species, if we find critical habitat is prudent

rPCH: Revised proposed critical habitat rule.

FL: For species that have already been proposed for listing, the final listing determination would either finalize or withdraw the proposed listing rule.

**Bolded entries have court-ordered dates associated with them.**

Package Name	Species Name	Action Type	Lead FWS Region	Priority Bin Ranking or LPN	Fiscal Year	Range	Scientific Name
14 Hawaii Island species	<b>ʻāku</b>	PCH	R1	N/A	FY23	HI	<i>Cyanea tritomantha</i>
14 Hawaii Island species	<b>Anchialine pool shrimp</b>	PCH	R1	N/A	FY23	HI	<i>Vetericaris chaceorum</i>
14 Hawaii Island species	<b>haha</b>	PCH	R1	N/A	FY23	HI	<i>Cyanea marksii</i>
